# Student Eligibility Record

- This form is generated based upon the items that are checked "use for eligibility." This is the official document given to parents.
- The format of this form no longer meets our needs. We have tried to indicate some thoughts - but would love Bill's insight into creating a document that captures our data and is parent-friendly.
- I have included a draft revision that still does not adequately capture data but might be another version to consider.

This is the current form generated through the database.
